Objectives for the mobile.tikiwiki.org project

Why mobile.tikiwiki.org?

1 To develop from Tiki CMS/Groupware & HAWHAW an easy tool for any webmaster to generate a website accessible to visually challenged (blind) people, cell phones, PDAs, Lynx text browsers and VoiceXML applications.
2 To develop a community around this objective, including of course visually challenged users.

We will attain this objective by eating our own Dogfoods, meaning we will develop this tool by using it as well. This is in an open source & open development project. Please join us and help transform this idea into reality. Please see WishList.

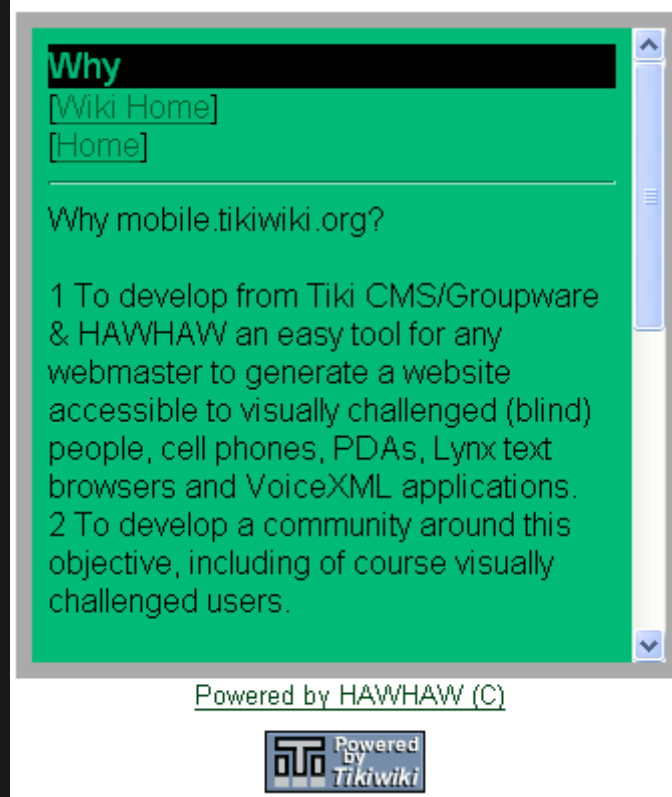

Tiki CMS / Groupware is already used to manage an estimated 20,000 to 50,000 websites & intranets. As we improve Tiki's accessibility features, the Web will become a that much friendlier place for surfers with accessibility needs.

HAWHAW news
Re: [HawHaw] Two HTTP request for the same page ?

This same page, in the mobile version, will look much simpler, using either small fonts:

Or a magnifying version with larger fonts for visually handicapped people:
