Example 2:

Create a page called "Menu", and add 4 links to other pages (one of them, called "Instructions"). Then add a link in your homepage to the same page "Instructions". Then, in the homepage, add this syntax:

```
{WIKIGRAPH(level=>1)}Menu{WIKIGRAPH}
```

You will end up seeing something like this:

HomePage

```
graph LR; Menu --> community; Menu --> homepage; Menu --> wiki_help[wiki help]; homepage --> Instructions;
```

Menu

- Instructions
- homepage
- community
- wiki help

This is just a sample menu - edit it
