Module Similar Content

List articles, wiki pages and/or blog posts with free tags similar to the current page (or object).

USAGE

{module module="action_similarcontent" broaden="1"}

PARAMETERS

Find similar content based on tags.

Go to the source code
Preferences required: feature_freetags

Parameters	Accepted Values

Description

Default **Since**

broaden

contentType

Find similar content that contains one of the Tags or All of the Tags Default: "n - needs to contain all of the Tags". Options: "n - Needs to contain All Tags / y - Needs to contain one of the Tags".

Display only similar content of type specified Default: "All Content Type". Options: "article, wiki page, blog post".

⚠ Warning

The broaden parameter was not working prior to Tiki9, except that Tiki6 was fixed beginning with version 6.7.

EXAMPLE

In this example, other objects that have all of the tags that this page has are listed.

This code:

```
{MODULE(module="action_similarcontent") /}
```

Would produce on this page:

SIMILAR CONTENT

wiki page : Module freetags_morelikethis
wiki page : Module freetags_most_popular

Based on this page having the following freetags:

TAGS
