

Module forums_last_posts

Shows the last posts in all the [forums](#) of the site.

PARAMETERS

Displays the latest forum posts.

[Go to the source code](#)

Preferences required: feature_forums

Parameters Accepted Values

author

date

time

Description

If set to "y", show post author directly instead of as tooltip. Default: n

If set to "y", show post date directly instead of as tooltip. Default: n

Show times after dates. Default: y

Default Since

topics

forumId

separator: **:**

If set to "y", only displays topics. Not set by default.

If set to a list of forum identifiers, restricts the posts to those in the identified forums. Identifiers are separated by colons (":"). Example values: "13", "31:49". Not set by default.

In addition, standard parameters available to all modules are available - see [Module Settings Parameters](#).
