MODULE LAST_FILES

PARAMETERS

List the specified number of files, starting from the most recently added.

Go to the source code
Preferences required: feature_file_galleries

Parameters	Accepted Values
galleryId	int *separator:* :

Description

If set to a set of file gallery identifiers, restricts the files to those in the identified galleries. The value is a colon-separated sequence of integers. Example value: 13, 2:13, 1:2:3:5:6. Not set by default.

Default	Since

Other general parameters: decorations
