

Shopping Cart Order Profile

The pagename on your Tiki for this profile cannot contain spaces

This is used for the advanced Shopping Cart feature: Record orders in trackers.
To use it on your Tiki, you will need to change:

- the tracker ID
- the field IDs

Make sure that proper Permissions are set on the page so that it does not get edited by non-admins.

YAML

```
objects: - type: tracker_item ref: new_order data: tracker: 4 status: pending values: - [ 15,
$profilerequest:user$admin$ ] - [ 16, $profilerequest:time$315532800$ ] - [ 17, $profilerequest:total$0.00$ ] - [ 18,
$profilerequest:invoice$0$ ]
```
