

# Plugin Cookie

Use this wiki plugin, introduced in Tiki3, to display a tagline or (fortune) cookie from the Cookies feature set up by the administrator. A new cookie is displayed in italics and within double quote marks every time the page is refreshed (assuming more than one has been input into the Cookies feature).

## Parameters

Display a random tagline or "cookie" (in the "fortune cookie" sense).

*Introduced in Tiki 3.*

Go to the source code

*Preferences required:* `wikiplugin_cookie`

---

### Parameters

*no parameters*

---

# Example

*This code,*

---

{cookie}

*Would produce on this site:  
"How many features are too many?"*

---

×

**i** Tip

Refresh the page to see another cookie
