

Plugin Events

Introduced in Tiki2

Use this [wiki plugin](#) to display upcoming events from the tiki site's calendars in a formatted table.

PARAMETERS

Display events from calendars

*Introduced in Tiki 2. Required parameters are in **bold**.*

[Go to the source code](#)

Preferences required: feature_calendar, wikiplugin_events

Parameters	Accepted Values
calendarid	text
maxdays	digits

Description

ID numbers for the site calendars whose events are to be displayed, separated by vertical bars (|)

Events occurring within this number of days in the future from today will be included in the list (unless limited by other parameter settings). Default is **365**.

Default	Since
	2.0
365	2.0

EXAMPLE WITH DATETIME, MAX AND MAXDAYS PARAMETERS SET

Below is an example using the 2 calendars at <http://dev.tiki.org/tiki-calendar.php>. There are two calendars (ID's 1 and 2) and the code below accesses both of them.

This code:

```
{EVENTS(calendarid="1|2" datetime="1" max="8" maxdays="15")}{EVENTS}
```

Although the max is set at eight, only four events are displayed. This is because there were only four events within 15 days (the maxdays setting) of the date the screenshot was made.

Upcoming events	
12	JIAMCATT, Ottawa, Canada
May	Created in June 1987 at the United Nations Office at Geneva, the Joint Inter-Agency Meeting on Computer-Assisted Translation and Terminology, renamed in April 2006
09	International Annual Meeting on Computer-Assisted Translation and Terminology
20:00	(JIAMCATT), provides its partners with a forum for debate, exchange of expertise and cooperation in the fields of computer-assisted terminology and translation,
EDT	interpretation and documentation retrieval. It works to establish a proprietary
15	terminology and information repository common to all participating organizations. This
May	not an open event. However, several TikiWiki community members will be participating
09	in various capacities.

12	Summertime/Geocamp 2009 - Ottawa, Canada
May	The Free and Open Source Software Learning Centre (FOSSLC) will be hosting a
09	conference on May 13, 14, and 15 at Algonquin College, Ottawa, Ontario, Canada. This
20:00	event will bring together industry, academia, government, and community to learn
EDT	about open source. Over 40 talks during the conference will cover technical, legal, and
15	business aspects of open source use in private industry, community, and government.
May	This event is relevant to technical and non-technical audiences. This event is relevant to
09	all industries as 85% of businesses already use open source today. Talks will be a mix
19:59	of skill levels with emphasis on approachable material suitable for beginners making
EDT	this an excellent learning opportunity.
15	ChangeCamp, Ottawa, Canada
May	ChangeCamp is an event format, an open community and a set of tools and ideas
09	designed to give citizens and governments the ability to work collaboratively in new
20:00	ways to make change and to better address real-world challenges in our communities.
