

Plugin Last Modification

Introduced in Tiki2

Use this [wiki plugin](#) to display the last modification date of the current or named page.

PARAMETERS

Show the last modification date for a page

Introduced in Tiki 2.

[Go to the source code](#)

Preferences required: feature_wiki, wikiplugin_lastmod

Parameters	Accepted Values
------------	-----------------

Description

Default Since

`format`

(blank)

long_date

short_date

long_datetime

short_datetime

iso

`page`

pagename

Set date and time format according to site settings.

Page name to display information of. Default value is current page.

15.0

2.0

 Note

There is a bug in some versions causing nothing to show if the `page` parameter is not set. In this case, `page="/"` can be used to show the last modification date of the current page.

 Note

[Wiki Argument Variables](#) can be used to specify current page.

EXAMPLES

This code,
{lastmod}

Would produce
on this site:
Sunday 11
August, 2019
04:20:02
GMT-0000
