Plugin Member Payment

New in Tiki5

Use this wiki plugin for users to make payments to extend the length of their membership to a group.

Requirements

- The group must have a membership expiry > 0 days
- Payment feature must be enabled and configured

Parameters

Receive payment from a member to extend membership to a group
Introduced in Tiki 5. Required parameters are in `bold`.
Go to the source code
Preferences required: wikiplugin_memberpayment, payment_feature

Parameters	Accepted Values	Description	Default	Since
price	text	Price per period (USD).		5.0
group	groupname	Name of the group for which the subscription should be added or extended.		5.0
freeperiods	int	Give specified numbers of free periods, the first one could be prorated, in addition to those bought	0	9.0
showtitle	text	Add a title to the payment form when initially shown after clicking "Continue". Use %0 for the group name, %1 for the price, %2 for the currency, %4 for the number of days and %5 for the number of years. Supports wiki syntax	Membership to %0 for %1 (x%2)	6.0
inputtitle	text	Title of the initial input form. Use %0 for the group name, %1 for the price, %2 for the currency, %4 for the number of days and %5 for the number of years. Supports wiki syntax.	Membership to %0 for %1 (x%2)	6.0
periodslabel	text	Customize the label for the periods input. No effect if Hide Period is set to Yes (`y`).	Number of periods:	9.1
paytitle	text	Title of the payment form after the initial showing. Use %0 for the group name, %1 for the price, %2 for the currency, %4 for the number of days and %5 for the number of years. Supports wiki syntax	Membership to %0 for %1 (x%2)	11.0
currentuser	(blank) y n	Membership only for the current user	n	6.0
preventdoublerequest	(blank) y n	Prevent user from extended if there is already a pending request	n	8.0
returnurl	url	Page that payment service returns to after processing.		11.0

hideperiod	(blank) y n	Do not allow user to set period - use default of 1.	n	11.0
inputtitleonly	(blank) y n	Select Yes (y) to just show the title of the input form and not the period and cost information. Input Title must be set as well.	n	11.0
howtitleonly	(blank) y n	Select Yes (y) to just show the title of the payment form. Initial Payment Form Title must be set as well.	n	11.0
paytitleonly	(blank) y n	Select Yes (y) to just show the title of the payment form that shows after the initial viewing. Subsequent Payment Form Title must be set as well.	n	11.0

Example

This code:

{memberpayment group="association" price="50"}

Would produce:

Membership to association for 365 days at 50 USD
Users: admin   (separated by |)

Periods: 1   Continue

×

ⓘ Tip

The 365 days in the above example is set by the admin for the group as the number of days after which a user is automatically unassigned.
Clicking on the continue button:

Takes the user to a screen where the payment can be made. Here's an example with Paypal used as the payment method (set in the Payment admin panel):

Manually completing payment information:

An admin will be able to fill in the payment information in case of a 'manual' payment. Here's an example of what the admin would see fro an unpaid payment:
