

# Plugin Relations

*Introduced in Tiki8*

Use this wiki plugin to display the relations of an object to the rest of Tiki.

# Parameters

Display the relation of an object to the rest of the site  
*Introduced in Tiki 8. Required parameters are in **bold**.*

Go to the source code

*Preferences required:* wikiplugin\_relations

| Parameters        | Accepted Values                | Description   | Default             | Since |
|-------------------|--------------------------------|---|---------------------|-------|
| <b>qualifiers</b> | attribute_type<br>separator: , | Comma-separated list of relation qualifiers.                                    |                     | 8.0   |
| emptymsg          | text                           | Message to give if result is empty and no relations are found.                  | No relations found. | 15.0  |
| object            | text                           | Object identifier as <code>type:itemId</code>                                   |                     | 8.0   |
| singlelist        | (blank)<br>0<br>1              | Render all qualifiers into a single list without displaying the qualifier name. | 0                   | 8.0   |

×

**i** Tip

*Please see <http://dev.tiki.org/Object+Attributes+and+Relations> for more information.*

# Examples

# Basic syntax

---

```
{relations qualifiers="attribute type" object="itemId" singlelist="0|1"}
```
