

Show.t.o Tracker Field

This is a stub

This field is initially for creating show.tiki.org instances in our bug tracker at <https://dev.tiki.org/tracker5>. It can be useful in other scenarios where Tiki instances need to be created on the fly upon user request, for training, or other purposes.

A more generic field type is Tiki Manager Tracker Field

Requirements

SSH2 extension for PHP needs to be installed for show.tiki.org feature to work

```
sudo apt-get install libssh2-php
```

or with newer distributions like ubuntu 20.04 it is:

```
sudo apt-get install php-ssh
```

How to set it up

dev.t.o/ -> 2 pages about show. Concept is described.

1. <https://dev.tiki.org/show.tiki.org>+Overview
2. <https://dev.tiki.org/show.tiki.org>

doc/devtools/tim
Tiki Instance Manager
user "control" ("ctrl")
scripts usually located in:

`/usr/local/sbin/`

Tracker field type show.t.o:
open that and set it up to use localhost

How to use it

The screenshot shows a dialog box titled "Edit Field" with a close button (X) in the top right corner. The dialog is divided into two sections: "General" (collapsed) and "Options for Show.tiki.org" (expanded). The "Options for Show.tiki.org" section contains the following fields and options:

- Domain name of show server:** A text input field containing "training.example.com". Below it is the text "For example, show.tiki.org".
- Shell user name on remote server:** A text input field containing "control". Below it is the text "The shell user name on the show server".
- Public key file path:** A text input field. Below it is the text "System path to public key on local server".
- Private key file path:** A text input field. Below it is the text "System path to private key on local server".
- Show debugging information:** A dropdown menu with "Yes" selected. Below it is the text "Show debugging info during testing".
- Fixed user id:** A text input field containing "0". Below it is the text "Set fixed user id instead of using user id of creator of tracker item".

At the bottom right of the dialog are two buttons: "OK" and "Cancel".
