

Tutorial - Goals

How to set up the feature "Goals - Recognition - Rewards" available since Tiki13. Images come from the presentation shown by Nelson Ko in the March 2014 Webinar.

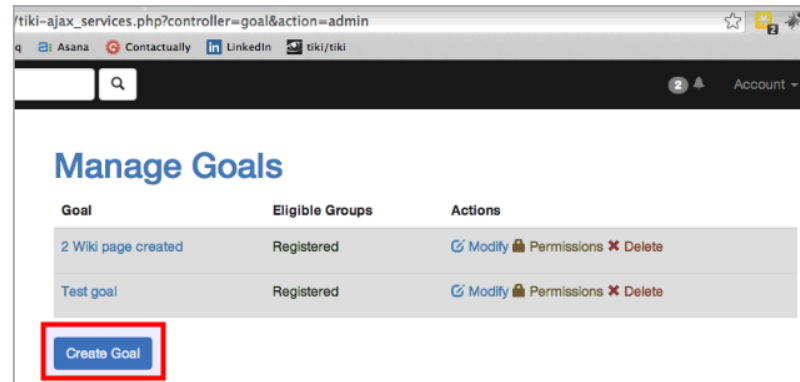

1.1. Enable the feature

Enable the feature in "Admin home > Community"

Click to expand

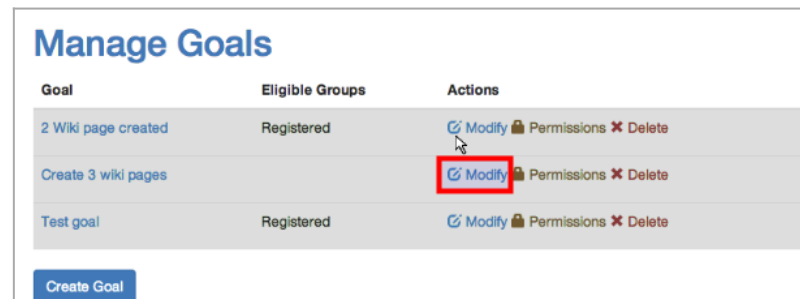

1.2. Create and set up some goal

Click to expand

The screenshot shows the 'Create Goal' form. It has a title 'Create Goal' and a sub-header 'Goal Administration'. Below this, there are two input fields: 'Name' and 'Description'. The 'Name' field contains the text 'Create'. At the bottom of the form, there are two buttons: 'Create' and 'Cancel'.

1.3. Use 'Badges' as rewards

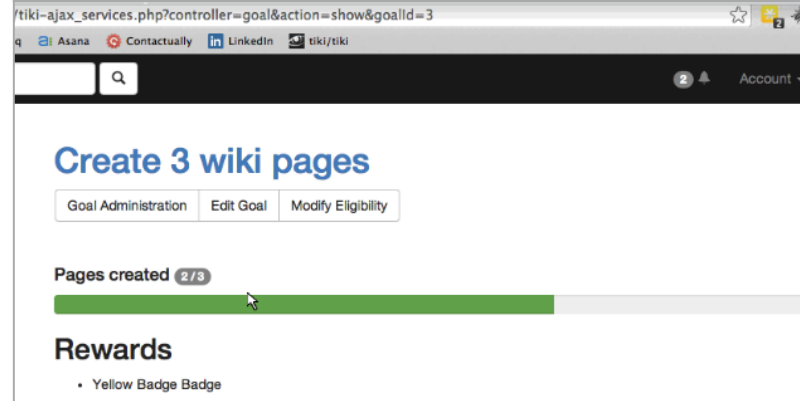

Click to expand

Click to expand

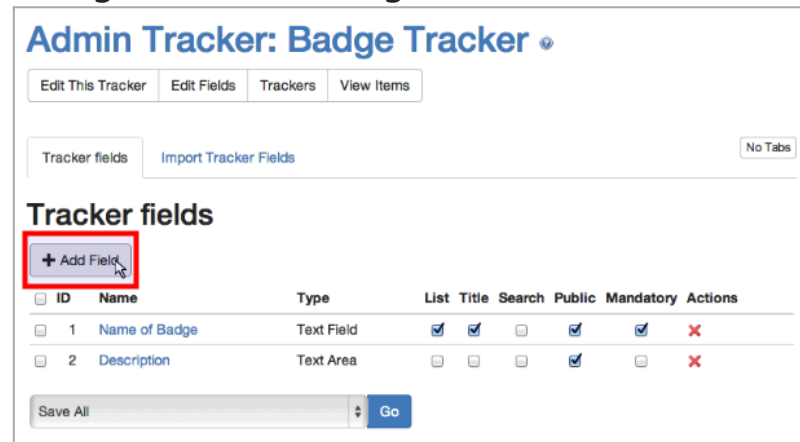

Click to expand

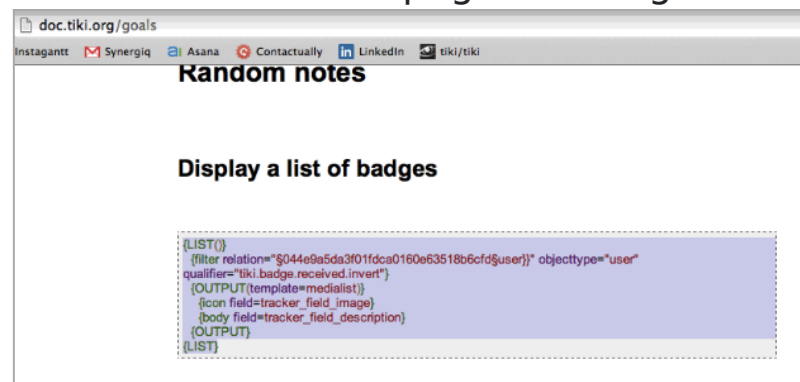

Click to expand

You can also define some images for the badge, as a new tracker field in the Badges Tracker.

Click to expand

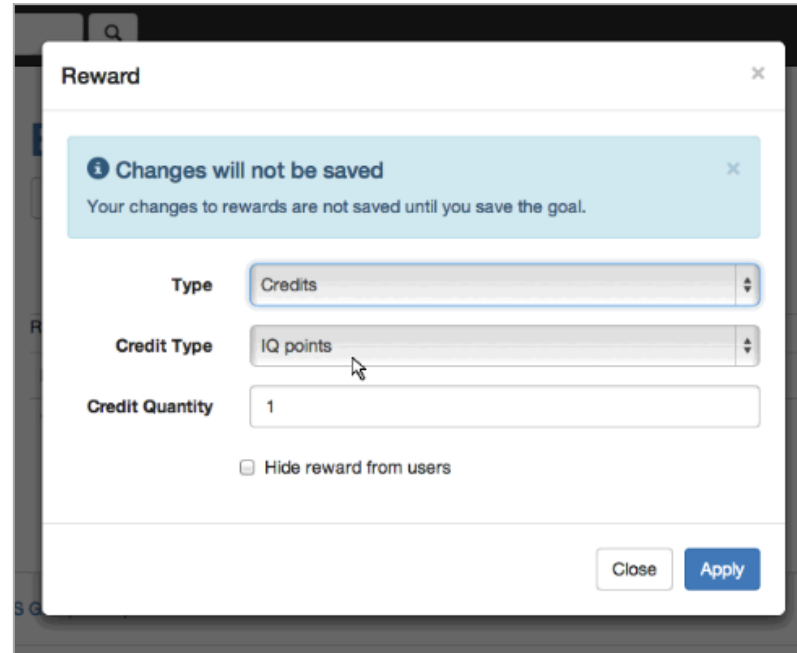

And then you can use plugin List to show that image wherever you need in your site. See the example at the documentation page for Badges:

Click to expand

1.4. Use 'Tiki User Credits' as rewards

You can also change the reward type from using "badges", as shown above, to using "credits", which reuses the feature "Tiki User Credits", which allows you to define your own points and credit system in your own tiki site.

A screenshot of a web application interface showing a 'Reward' dialog box. The dialog has a title bar with a close button (X). Below the title bar is a light blue informational banner that reads 'Changes will not be saved' and 'Your changes to rewards are not saved until you save the goal.' Below this banner are three form fields: 'Type' with a dropdown menu showing 'Credits', 'Credit Type' with a dropdown menu showing 'IQ points', and 'Credit Quantity' with a text input field containing '1'. Below these fields is a checkbox labeled 'Hide reward from users' which is currently unchecked. At the bottom right of the dialog are two buttons: 'Close' and 'Apply'.
