

User Action log

A user can view a report of all his/her actions, provided an admin has configured the [Action log](#) feature and granted users the Tiki permission to do so. You can click on the action log icon at "MyTiki" section.

There you will see the interface to select which category and time frame you want for your action log report or graph.

The screenshot shows the 'Action Log' interface. At the top, there are two tabs: 'Report' (selected) and 'Setting'. Below the tabs is a 'Filter' section with the following fields:

- Start date: January 16, 2006
- End date: May 29, 2007
- Category: * All *
- Unit: bytes (selected) kb
- Time frame: Week (selected) Day

At the bottom of the filter section, there are two buttons: 'Report' and 'Graph'. Below the filter section, there are two links: 'List' and 'Statistic'.

Besides, you can select which features and actions you want to be added into the report:

Action Log

Report **Setting**

Setting

viewed	action	type
<input checked="" type="checkbox"/>	Created	wiki page
<input checked="" type="checkbox"/>	Removed	wiki page
<input checked="" type="checkbox"/>	Removed last version	wiki page
<input checked="" type="checkbox"/>	Removed version	wiki page
<input checked="" type="checkbox"/>	Renamed	wiki page
<input type="checkbox"/>	Rollback	wiki page
<input checked="" type="checkbox"/>	Updated	wiki page
<input type="checkbox"/>	Viewed	wiki page
<input type="checkbox"/>	Created	sheet
<input type="checkbox"/>	Removed	sheet

Finally, this will produce a detailed report of that user's actions in that tiki site for that time frame.
