

User Wizard - Set up the User Details screen

Starting in [Tiki12.2](#), the [User Wizard](#) feature can include a specific screen to request extra information to your users, as well as to provide custom information for further clarifications or notes specific to your site or that campaign to collect more information.

Click to expand

TABLE OF CONTENTS

- [Step 1: Apply "User_Trackers" Profile](#)
- [Step 2: Edit group Registered](#)
- [Step 3 \(optional\): Choose in Login Admin Panel fields to be shown in the User Wizard](#)

STEP 1: APPLY "USER_TRACKERS" PROFILE

You must apply the profile "User & Registration Tracker" ("User_Trackers"). You can do so from the Profiles Admin Panel, or from the "Profiles Wizard" (in [Tiki12](#)).

Configure Tiki in 3 easy steps using Profiles

Profiles

Step 1: Use the Quick or Manual Filter option to see a list of Configuration Profiles you can apply

Option 2: Manual Filter

Filter the list of profiles:

Profile name:

Profile types:

Repository:

Step 2: Click on a Configuration Profile Name below to review it and to be able to apply it on your Web site

Profile Name	Repository	Profile type
User_Trackers applied	profiles.tiki.org	release, Mini-profile (can be included in other), 5.x, 9.x, 12.x, 13.x

Status

Profile repository	Status	Last update
http://profiles.tiki.org		2014-03-20 18:40:31

Click to expand

Once the profile is applied, you will see the Instructions page with further instructions.

User_Trackers

After this profile installation,

1. Go to tiki-admin/groups.php?group=Registered
2. Find "Users Information Tracker" field and select the newly created tracker "Users" from the dropdown, and hit **Save**
3. Pick the "login" from the newly appeared dropdown, and then click save again
4. In the text field called **Users Information Tracker Fields Asked at Registration Time...**, enter the fieldIds for the fields of the **Users** tracker, which you want to be active on the user registration form. Then hit **Save** again.

1. [Add a user](#)
2. Become that user (SU)
3. Then, visit tiki-view_tracker_item.php?view+=user or go there from the right column module

Click to expand

STEP 2: EDIT GROUP REGISTERED

You need to go to manage groups, and edit group "Registered" (tiki-admin/groups.php?group=Registered&cookietab=2).

There you must indicate which tracker is the "**Users Information Tracker**", and which field carries the login field (tracker "Users" and field "1 - login" in the example at the screenshot). You can set just below the fields that are to be shown at registration time (fields 2:10:17:18 in the example at the screenshot). And just below that you are indicated that you can also set up a different combination of fields in the **User Wizard**, through the "**Login admin panel**" (tiki-admin.php?page=login).

The screenshot shows the 'Edit group Registered' form. At the top, there are tabs for 'List', 'Edit group Registered', 'Members', and 'Import/Export'. The main title is 'Edit group Registered'. Below this, there are several sections:

- Group:** Registered
- Description:** A text area containing 'Blog user'.
- Inherit permissions directly from following groups:** A dropdown menu with 'None' and 'Anonymous' (selected).
- Also inheriting permissions from the following groups (indirect inheritance through the groups selected above):** None
- Group Homepage or Url:** Registered HomePage
- Default category assigned to uncategorized objects edited by a user with this default group:** none
- Users Information Tracker:** A section with two dropdown menus. The first is set to 'Users' and the second to '1 - login'. This section is highlighted with a red box.
- Users Information Tracker Fields Asked at Registration Time:** 2:10:17:18
- Users Information Tracker Fields Asked in the User Wizard:** A section with a blue background and a red border. It contains the text: 'By default, the same fields as in Registration. You can choose in the Login admin panel to show different fields in User Wizard than the ones asked at Registration Time.' This section is also highlighted with a red box.
- Assign group management permissions:** A section with a key icon and a 'Save' button.

Click to expand

STEP 3 (OPTIONAL): CHOOSE IN LOGIN ADMIN PANEL FIELDS TO BE SHOWN IN

THE USER WIZARD

In the "Login Admin Panel" you can optionally choose to "**Ask different fields in the User Wizard than the ones in Registration**", and then, indicate which fields from the User Tracker selected in the previous step. This is not compulsory, and if this preference is not selected, then the same fields shown at Registration time will be shown in the User Wizard.

In this example shown in the screenshot, the preference is enabled, and fields 26:2:21:10:20 where chosen to be shown in the User Details screen from the User Wizard, a part from the fields shown in the Registration process:

Click to expand

If we go to see the fields from that User Tracker, we can see that field 26, for instance, is of type "static text" and is the one suitable to provide custom information for your users if you need to do so (latest news, why some extra information is requested, site policy updates, etc). The other fields are some selection of the long list of fields provided by default in that user tracker.
