SETTING UP BIT.LY AS URL SHORTENER

At the moment, this is only used by the [Share](#) feature. By going to bit.ly, you can register and request a key. As Admin, you can force all users to use the site wide key which gives you a nice overview on the pages shared by your users and the feedback on that.

bit.ly Settings

Note

There is no need to set up a site wide bit.ly account, every user can have one on his own, but this allows for site wide statistics
Go to http://bit.ly/a/sign_up to sign up for an account.
Go to http://bit.ly/a/your_api_key to retrieve the api key.
