more tool tips

---

If set to "y", blog post title is only visible as a tooltip and not displayed. Default: "n" Options: "y,n"

---

## EXAMPLE

In the below example we pass in a wiki page the module Newest Blog Post Comments through the plugin module.  
So, this code:

```
{module module="blog_last_comments" title="Latest comments"}
```

Produces on this site:

### LATEST COMMENTS

1. [Packages](https://doc.tiki.org/tiki-admin.php?page=packages): I visited <https://doc.tiki.org/tiki-admin.php?page=packages> and noticed some other opportunities [Marc Laporte](#) Wed 16 Oct, 2019 13:43 GMT-0000
2. [DocContributors granted the perms to edit doc.tw.o homepage](#): related post to tw forum about documentation [Xavi \(as xavidp - admin\)](#) Fri 29 Aug, 2008 10:45 GMT-0000
