

Module Reading Time

This [Module](#) displays the estimated reading time for the words on a Wiki page (inner modules are excluded). To avoid displaying empty module on non wiki page object, set the module Visibility Section to wiki.

USAGE

To use module **Reading Time** in a wiki page:

```
{module module="reading_time" wordsPerMinutes="200" minTimeThreshold="1" minTimeThresholdText="Reading time: Less than a minute" maxTimeThreshold="30" maxTimeThresholdText="Reading time: Less than a minute" timePrefixText="Approximate reading time:" timePostfixText="min." timeMinutesOnly="n"}
```

Where: Displays the estimated reading time for the words on a Wiki page (inner modules are excluded). To avoid displaying empty module on non wiki page object, set the module Visibility,Section to wiki.

Parameters

Accepted Values

Description

Default

Since

maxTimeThreshold int

maxTimeThresholdText text

minTimeThreshold int

minTimeThresholdText text

timePostfixText text

timePrefixText text

wordsPerMinutes int

value in minutes above which it is not needed to display the time. Set to 0 for none.

Text displayed when the reading time is above the maximum threshold value.

value in minutes below which it is not needed to display the time. Set to 0 for none.

Text displayed when the reading time is below the minimum threshold value.

Text displayed after the result (the reading time).

Text displayed before the result (the reading time).

The number of words human can read per minute.

30

Reading time: More than 30 minutes

1

Reading time: Less than a minute

min.

Approximate reading time:

200

timeMinutesOnly

(blank)

y

n

Will not displays the seconds and round up the result if the value is bigger than 30s.

EXAMPLE

In the example below we pass in a wiki page the module Reading Time through the plugin module.
So, this code:

```
{module module="reading_time" wordsPerMinutes="200" minTimeThreshold="1" minTimeThresholdText="Reading time: Less than a minute" maxTimeThreshold="30" maxTimeThresholdText="Reading time: Less than a minute" timePrefixText="Approximate reading time:" timePostfixText="minutes" timeMinutesOnly="y"}
```

Produces on this site:

READING TIME

Reading time: Less than a minute
