-------------------	-------

---

## **Description**

Changes how the list of languages is displayed. Possible values are droplist, flags and words. Defaults to droplist.

---

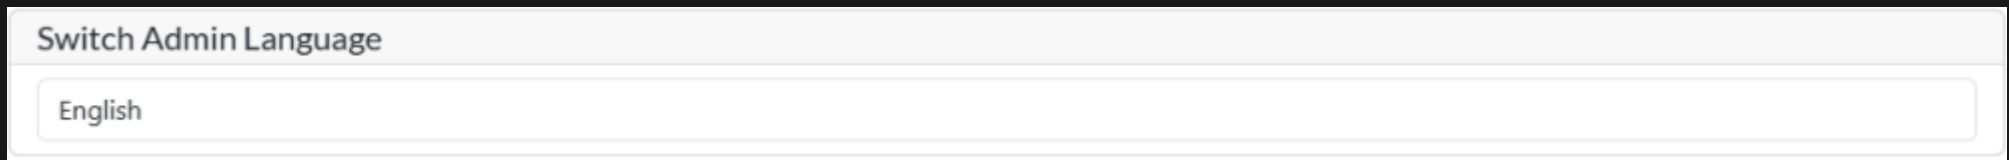

<b>Default</b>	<b>Since</b>
----------------	--------------

# EXAMPLE

In the example below we pass in a wiki page the module Switch Admin Language through the plugin module.  
So, this code:

```
{module module="switch_lang_admin" mode="droplist"}
```

Would produces on this site:

The screenshot shows a light gray rectangular box with a thin border. At the top left, the text "Switch Admin Language" is displayed in a dark gray font. Below this, there is a white rounded rectangular area containing a dropdown menu. The menu is currently open, showing the word "English" in a dark gray font, which is highlighted with a light gray background.
