# 위키 인수 변수

이 제목은 티키에서 사용될 수 있는 일부 변수를 나타냅니다, 예를 들면 : user, page, itemId. 간단한 이중 중괄호로 쌓아서 위키 문법 using double angle brackets around them, once this preference is enabled in "Admin > Editing & Plugins" panel, you can put them in your wiki syntax enabled text area and have them to become automatically replaced by their actual value anywhere where they are used.
