

Auto TOC

Starting in [Tiki12](#), a new feature to allow adding an automatic Table Of Contents ("Auto TOC") has been added to the Wiki. And starting in [Tiki23](#), you can have more options via [PluginAutoTOC](#)

Enable it

Auto-toc can be enabled as admin through the admin panel in "**Admin home > Wiki > General Preferences (Tab) > Section *Automatic table of contents (Page Display before Tiki 15) > Wiki auto-toc***"

You can also choose:

- the default for each page (which can be overridden per page)
- If the top TOC should be inserted into the page content or not
- Position left or right
- Offset from the top

Table of contents offset pixels

Click to expand

Auto TOC is not included in the print view of the page.

Usage

Auto-toc will add the TOC in two places.

1. A static TOC located at the top of the page. The TOC is inserted into the page content at runtime.
 - Example:

Thank you for installing the Collaborative Community Profile

We recommend you visit the [Instructions](#) page to learn how to manage and use this profile

- Thank you for installing the Collaborative Community Profile
- Welcome to Our Community
 - Step 1: Explore
 - Step 2: Ask a Question and Give Feedback
 - Step 3: Contribute

Welcome to Our Community

Welcome to our community site, the goal of this project is to create a knowledge hub for everyone who is interested in this subject to participate and collaborate together.

Step 1: Explore

- Search for Content
- Visit Wiki Pages
- Read Blogs and Forums

Step 2: Ask a Question and Give Feedback

- Register to become part of the community
- Ask questions in the Forums
- Give feedback using Comments at the bottom of any page

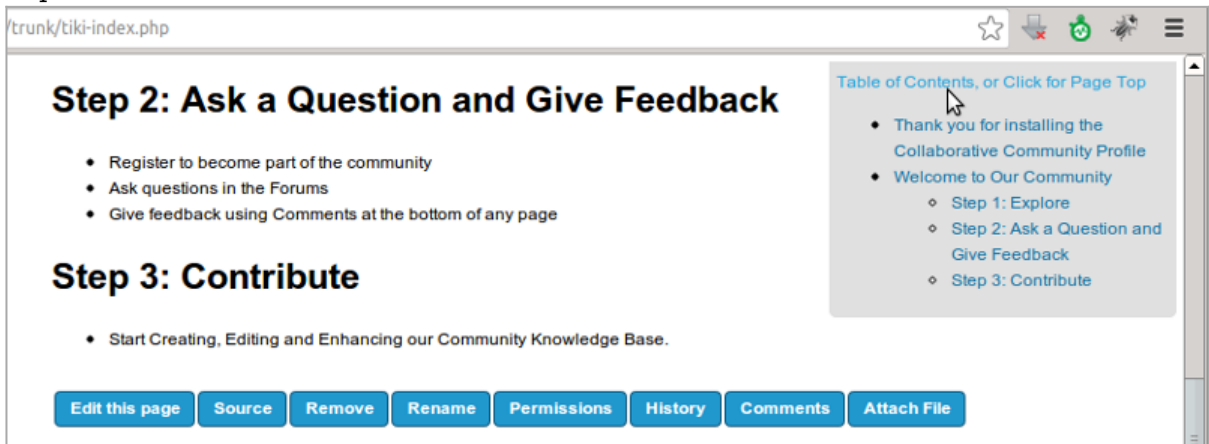

Step 3: Contribute

- Start Creating, Editing and Enhancing our Community Knowledge Base.

Click to expand

2. A floating TOC, located at the top of the browser window. This TOC is only visible when you scroll down past the top of the page.

◦ Example:

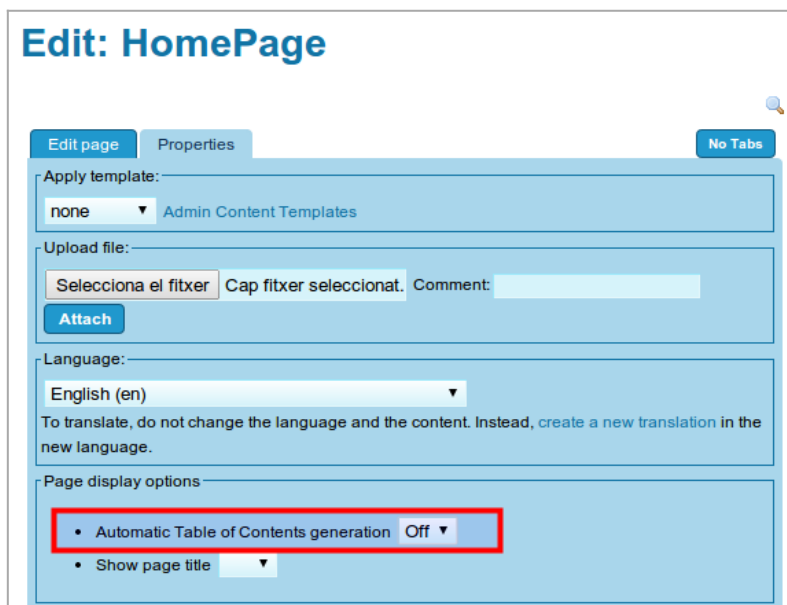

Click to expand

Additionally, you can also see it in action in the screencast below.

```
{flash type="url" movie="https://dev.tiki.org/display372" width="550" height="500"}
```

Disable it in some pages

You can disable it in some wiki pages. In order to do so, edit the page, go to the properties tab, and set **"Page display options > Automatic Table of Contents generation"** to **"off"**:

Click to expand
