

Date-based aggregations

New in [Tiki20](#), this requires [Elasticsearch](#)

This adds new facets to the [Faceted search](#)

Admin panel -> Search -> Search Results

The screenshot shows a configuration interface for date histogram aggregations. It includes a toggle for 'Use date histogram aggregations', a text input for 'Date histogram aggregations interval' with the value 'year', and a list of 'Date range aggregations ranges' with several pre-defined options. A red error message at the bottom states 'You need to set Use date histogram aggregations'.
