

Module Similar Content

List articles, wiki pages and/or blog posts with free tags similar to the current page (or object).

Usage

```
{module module="action_similarcontent" broaden="1"}
```

Parameters

Find similar content based on tags.

[Go to the source code](#)

Preferences required: feature_freetags

Parameters	Accepted Values	Description	Default	Since
<code>broaden</code>		Find similar content that contains one of the Tags or All of the Tags Default: "n - needs to contain all of the Tags". Options: "n - Needs to contain All Tags / y - Needs to contain one of the Tags".		
<code>contentType</code>		Display only similar content of type specified Default: "All Content Type". Options: "article, wiki page, blog post".		

Example

In this example, other objects that have all of the tags that this page has are listed.

This code:

```
{MODULE(module="action_similarcontent") /}
```

Would produce on this page:

Similar Content

wiki page : [Module freetags_morelikethis](#)

wiki page : [Module freetags_most_popular](#)

Based on this page having the following freetags:

Tags
