

## Module `directory_top_sites`

This is a [stub](#). Some [screenshot](#) is needed

### Parameters

Displays the specified number of the directory sites from most visited to least visited.

[Go to the source code](#)

*Preferences required:* `feature_directory`

Parameters	Accepted Values	Description	Default	Since
<code>maxdesc</code>	int	If desc = "y", use maxdesc to set the maximum length of the directory site (in characters). Leave blank to set no maximum (show the entire description). Default: blank.		
<code>desc</code>	word	If set to "y", the description of the directory site appears. Default: "n".
