

# Module forums\_last\_posts

Shows the last posts in all the [forums](#) of the site.

## Parameters

Displays the latest forum posts.

[Go to the source code](#)

*Preferences required:* feature\_forums

| Parameters           | Accepted Values                  | Description   | Default | Since |
|----------------------|----------------------------------|---|---------|-------|
| <code>author</code>  |                                  | If set to "y", show post author directly instead of as tooltip. Default: n  |         |       |
| <code>date</code>    |                                  | If set to "y", show post date directly instead of as tooltip. Default: n  |         |       |
| <code>time</code>    |                                  | Show times after dates. Default: y  |         |       |
| <code>topics</code>  |                                  | If set to "y", only displays topics. Not set by default.  |         |       |
| <code>forumId</code> | <i>separator:</i> <code>:</code> | If set to a list of forum identifiers, restricts the posts to those in the identified forums. Identifiers are separated by colons (":"). Example values: "13", "31:49". Not set by default. |         |       |

In addition, standard parameters available to all modules are available - see [Module Settings Parameters](#).
