

Module freetags_morelikethis

When viewing a wiki page, this [Module](#) displays a list of other wiki pages that have at least a given number of tags in common with the page being viewed. The feature [Freetags](#) must be activated. This module will be hidden when viewing objects other than wiki pages.

Usage

You will see it listed at [Admin > Modules > Assign new module > freetags_morelikethis \(drop down\)](#) ([tiki-admin_modules.php](#)).

You can assign a this [Module](#) to a lateral column (See [Module Admin](#) page if needed), or you can include it within a wiki page, using the [PluginModule](#). The assigned module looks like the example shown to the right.

Admin Options

In the Admin:Freetags page ([tiki-admin.php?page=freetags](#)), there are two option controls for this module in the "Tag Management" section, shown below.

The 'Tag Management' configuration interface for the 'More Like This' module. It includes the following settings:

- Cleanup unused tags: [cleanup](#)
- More Like This/Get Similar Module
- More Like This algorithm: [weighted](#) (dropdown menu)
- Basic algorithm - Minimum amount of tags in common: [1](#) (dropdown menu)
- [Change preferences](#)

Parameters

Shows content with multiple tags in common.
