

Module last_modif_events

This module lists the last modified events in a [calendar](#)

Parameters

Display the specified number of calendar events, starting from the most recently modified.

[Go to the source code](#)

Preferences required: feature_calendar

Parameters	Accepted Values	Description	Default	Since
<code>nodate</code>		If set to "y", it will hide date.		
<code>calendarId</code>		If set to a calendar identifier, restricts the events to those in the identified calendar. Example value: 13. Not set by default.		
<code>maxlen</code>	int	Maximum number of characters in event names allowed before truncating.
