

Module switch_lang

This [Module](#) allows visitors to change the language of the Tiki site interface (menus, module titles, and so on.). The switch_lang2 module also provides a way to change the interface language.

Parameters

Displays a language picker to change the language of the site.

[Go to the source code](#)

Preferences required: feature_multilingual, change_language

Parameters	Accepted Values	Description	Default	Since
mode	alpha	Changes how the list of languages is displayed. Possible values are droplist, flags and words. Defaults to droplist.		

Usage

You will see it listed at ""Admin > Modules > Assign new module > Module Name (drop down)" (**tiki-admin_modules.php**).

You can assign a this [Module](#) to a lateral column (See [Module Admin](#) page if needed), or you can include it within a wiki page, using the [PluginModule](#).

You can also include the module in a wiki page by using:

```
{MODULE(module=>switch_lang, title=TITLE, flip=>y|n, nobox=>y|n, decorations=y|n)}{MODULE}
```

Where:

- title: The title of the module box. The default is **Language**
- flip:
This option requires that **nobox = n**.
- nobox: If **y**, do *not* draw a box around the module. The default is **n** (a box *will* be drawn).
This option requires that **decorations = y**.
- decorations: If **n**, the **flip** and **nobox** options will be ignored. The default is **y**.

The assigned module looks like this:

The list of available languages is determined by the language files currently installed in your **lang** directory:
