Module users_own_rank

Introduced in [Tiki9](#), it displays the logged user's rank and score.

Usage

Module

```
{MODULE(module=users_own_rank, parameter=value)}text {MODULE}
```

Parameters

Display the logged user's rank and score.

[Go to the source code](#)
Preferences required: feature_score

Parameters
no parameters

No parameter specific to this module.
It requires that feature *feature_score* is active.
It should not be displayed for anonymous, since this does not make any sense.
