

# Plugin Add toÂ Cart

Use this [wiki plugin](#), introduced in [Tiki5](#), to display a button for adding one or more items to the shopping cart. The shopping cart is displayed and accessed using [Module Cart](#). Once the order is placed in the shopping cart, the user is taken to [Payment](#).

## Parameters

Add a product to the shopping cart.

*Introduced in Tiki 5. Required parameters are in **bold**.*

[Go to the source code](#)

*Preferences required:* wikiplugin\_addtocart, payment\_feature

### Parameters

### Accepted Values

**description**

text

**price**

text

---

## **Description**

Label for the product in the cart.

The price to charge for the item.

# Example

*This code,*

```
{addtocart description="Panama Hat" code="A150" price="45.00"}
```

*Would produce:*

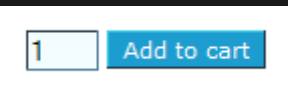

(screenshot)

The add to cart button would typically be used along with item information like below:

Panama Hat

\$45.00%%%

*The description, inventory code and price are passed to the shopping cart when the add to cart button is clicked.*
