

Plugin Avatar

This [wiki plugin](#) displays a user's profile picture and can make it a link to another page.

Parameters

Display a user's profile picture

Introduced in Tiki 1.

[Go to the source code](#)

Preferences required: wikiplugin_avatar

Parameters	Accepted Values
(body of plugin)	
<code>fullsize</code>	

Description

username

If full-size images are stored in the file gallery, show the full-size image.

Default	Since
n	10.0

float

(blank)

right

left

page

Align the profile picture on the page

The wiki page the profile picture will link to. If empty and the user's information is public, then the profile picture will link automatically to the user's user information page
