

Plugin Avatar

This [wiki plugin](#) displays a user's profile picture and can make it a link to another page.

Parameters

Display a user's profile picture

Introduced in Tiki 1.

[Go to the source code](#)

Preferences required: `wikiplugin_avatar`

Parameters	Accepted Values	Description	Default	Since
(body of plugin)		username		
<code>fullsize</code>		If full-size images are stored in the file gallery, show the full-size image.	n	10.0
<code>float</code>	(blank) right left	Align the profile picture on the page		1
<code>page</code>		The wiki page the profile picture will link to. If empty and the user's information is public, then the profile picture will link automatically the that user's user information page		1

Example

Float right

This code:

```
{AVATAR(float="right")}luci{AVATAR}
```

Would produce on this site:
