

# Plugin CategoryÂ Orphans

This [wiki plugin](#) can be added to any wiki page to list a variety of Tiki objects that are not included in Tiki's category system.

From Tiki14 the range of Tiki objects was extended to allow file galleries, articles, trackers, blogs, calendars and forums to be checked, and this functionality was backported to Tiki12. Prior to Tiki12 only wiki pages could be checked.

## Parameters

List objects that are not categorized

*Introduced in Tiki 1.*

[Go to the source code](#)

*Preferences required:* feature\_categories, wikiplugin\_catorphans

Parameters	Accepted Values
------------	-----------------

<code>max</code>	<code>int</code>
------------------	------------------

---

## Description

Maximum number of items. Use  for unlimited.

Default is the site admin setting for maximum records.

<b>Default</b>	<b>Since</b>
\$prefs'maxRecords'	1

offset

int

objects

wiki

file gallery

article

tracker

blog

calendar

forum

---

Result number at which the listing should start (default is no offset)

Determine which type of objects are shown (default is wiki)
