Finally the JavaScript Bit

```
$(document).ready( function() {
  // set up month selector dropdown
  $("#daterange-presets").change(function () {
    var val = $(this).val(),
        $from = $("#date_from_dptxt"),
        $to = $("#date_to_dptxt"),
        now = new Date(),
        year = now.getFullYear();

    if (val === "year") {
      $from.datepicker("setDate", "1/05/" + year).change();
      $to.datepicker("setDate", now).change();
    } else {
      val = parseInt(val);

      $from.datepicker("setDate", "1/" + val + "/" + year).change();
      if (val === 12) {
        val = 0;
        year++;
      }
      $to.datepicker("setDate", "1/" + (val + 1) + "/" + year).change();
    }
    $("#table#wpcs-0").find("th:first-child").trigger("sort");
    $csForm.submit();
  });
});
```
