Plugin Favorite

Use this wiki plugin, introduced in Tiki8, to display a button for a user to click to make an object a favorite.

Parameters

Display a button for a user to click to make an object a favorite
Introduced in Tiki 8. Required parameters are in **bold**.
Go to the source code
Preferences required: wikiplugin_favorite, user_favorites

Parameters	Accepted Values	Description	Default	Since
objectType	text	Indicate type of object		8.0
objectId	text	Enter the ID of the object		8.0

Example

This code:

```
{favorite objectType="wiki page" objectId="PluginFavorite"}
```

You need to login to try this out

A more generic code (works on any page):

```
{favorite objectType="wiki page" objectId="{ {page} }"}
```

(no spaces between "{ {" and "} }")

Alias names of this page:
Plugin Favourite | PluginFavourite | Plugin Favorite
