

# Plugin Gauge

This [wiki plugin](#) displays a horizontal bar gauge of a value compared to a maximum.

## Parameters

Display a horizontal bar gauge

Introduced in Tiki 1. Required parameters are in **bold**.

[Go to the source code](#)

Preferences required: `wikiplugin_gauge`

Parameters	Accepted Values	Description	Default	Since
(body of plugin)		description		
<b>value</b>	float	Current value to be represented by the gauge		1
<b>perc</b>	(blank) 1 (blank)	Set to <code>true</code> (Yes) to display a percentage of the maximum.		1
<b>showvalue</b>	(blank) 1 (blank)	Set to <code>%1</code> (No) to hide the numeric value (shown by default).	1	3.0
<b>height</b>	digits	Bar height in pixels.	14	1
<b>label</b>	text	Label displayed on the left side of the gauge.		1
<b>labelsize</b>	digits	Label width, in pixels.	50	1
<b>max</b>	digits	Maximum possible value. Default: <code>100</code>	100	1
<b>size</b>	digits	Bar width in pixels.	150	1
<b>bgcolor</b>		Background color of the gauge. Use HTML color codes or names.	<code>#0000FF</code>	1
<b>color</b>		Main color of the gauge. Use HTML color codes or names.	<code>#FF0000</code>	1

## Example

This code:

```
{GAUGE(value="15000" max="16443" label="Satisfied users" perc="true" labelsize="250" height="20" color="green" bgcolor="#EEEEEE")}__User satisfaction survey results__ {GAUGE}
```

Would produce:

Satisfied users

User satisfaction survey results

Configuration table:

hex code	nom de couleur
Agitation	Valid CSS color name or hex code
#0000FF	Arrière-plan de la barre de progression. Utiliser les codes ou noms de couleurs HTML

Example

This code:

```
[@UID|value="15080" max="16643" label="satisfied users" perc="true" labelize="30" height="20" color="green" bgcolor="#0000FF"];_User_satisfaction_survey_results_{@UID}
```

Would produce:

Satisfied users 91.22%

User satisfaction survey results
