Default	Since
	15.0
	15.0
	15.0

query_dimensions	text
------------------	------

query_end-date	text
----------------	------

query_max-results	int
-------------------	-----

query_metrics	text
---------------	------

query_segment	text
---------------	------

query_sort	text
------------	------

query_start-date	text
------------------	------

height	text
--------	------

default "ga:date"

default "yesterday"

default 50

e.g. "ga:pageviews", default
"ga:sessions,ga:users"

default ""

One of the metrics usually, e.g. "-ga:sessions"

default ""

default "30daysAgo"

In pixels or percentage. Default value is **300**.

ga:date	15.0
yesterday	15.0
50	15.0
ga:sessions,ga:users	15.0
	15.0
	15.0
30daysAgo	15.0
300	15.0

chart_type

(blank)

LINE

COLUMN

BAR

PIE

TABLE

GEO

width

text

query

text

Type of chart, e.g. LINE, PIE etc.

In pixels or percentage. Default value is **100**

Can be used instead of the parameters below.

E.g. "metrics=ga:users&dimensions=ga:country",
query can be generated here: [ga-dev-tools](#)

LINE

15.0

15.0

15.0

float

(blank)

right

left

none

Set the alignment for the entire element. For elements with a width of less than 100%, other elements will wrap around it unless the `clear` parameter is appropriately set.

15.0

Examples

Example 1

This code:

```
{googlechart parameter1="value1" parameter2="value2"}
```

*Would produce on this site:
(pending an example)*
