

Plugin Group Stat

Introduced in *Tiki4*

This [wiki plugin](#) is used to show the distribution of users among a list of groups.

Parameters

Show the distribution of users among groups

Introduced in *Tiki 4*.

[Go to the source code](#)

Parameters	Accepted Values	Description	Default	Since
(body of plugin)		Title		
<code>groups</code>	<i>separator:</i> <code>:</code>	Select one or more groups. If none selected, all groups will be listed.		4.0
<code>percent_of</code>	groups site	Show percentage out of all users in site, or just those specified in the groups parameter.	groups	8.0
<code>show_bar</code>	(blank) y n	Represent the percentage of total users that are members of each group in a bar graph (default is not to show the bar graph)	n	4.0
<code>show_percent</code>	(blank) y n	Show the percentage of total users that are members of each group (percentages are shown by default)	y	4.0

Examples

Using percent of site users

This code:

```
{groupstat percent_of="site"}
```

Would produce on this site:

Group Name	Number of Users	Percentage of Total
Admins	35	0.30%
DocContributors	10	0.09%
DocTwoAdmins	22	0.19%
DocTwoEditors	14	0.12%
Team Developers	352	3.06%

Screenshot

Here's a screenshot of an example listing showing numeric percentages:
