

Plugin Subscribe Groups

Introduced in [Tiki2](#)

If you have allowed users to subscribe themselves to groups, you can use this [wiki plugin](#) to allow them to subscribe/unsubscribe to a list of groups. Please see [PluginSubscribeGroup](#) for a related plugin that allows a user to subscribe/unsubscribe to a single group.

Security and permissions

- A user must have the perm `tiki_p_subscribe_group` to be able to see the box
To set this permission go to *Settings > Groups*
- The group must be set as being a **user choice**
To set this configuration go to *Settings > Groups*

⚠ Security Caution

*Using this plugin, **any registered user will be able to access any group** provided that the group has "User Choice" checked in the settings for the group at **Settings > Groups**.*

Parameters

Allow users to subscribe to a list of groups

Introduced in Tiki 2.

[Go to the source code](#)

Preferences required: wikiplugin_subscribegroups

Parameters

Accepted Values

defaulturl

managementpagename

groups

Description

Always allow leaving group even if the group settings do not allow user choice.

Show the description of the group (not shown by default)

Shows which group is the user's default group (if any) and allows the user to change his or her default group.

Show the subscribe box (shown by default). Will not show if there are no other groups the user may register for.

table

Style to show the subscribe box.

dropdown 8.0

In the list of groups, you can see included groups in italics. You can not unsubscribe to an included group, if you are in the including group.

Example

This code:

```
{subscribegroups groups="Cinergie:Editors" subscribe="Subscribe to a group"}
```

Would produce:

Cinergie	×
Editors	×

Subscribe to a group ▼
