Use this [wiki plugin](#) to retrieve and include a [Zotero](#) reference in the page.

Parameters

Retrieves and includes a Zotero reference in the page.

Introduced in *Tiki 7*.

[Go to the source code](#)

Preferences required: `zotero_enabled`, `wikiplugin_zotero`, `wikiplugin_footnote`

Parameters	Accepted Values	Description	Default	Since
<code>note</code>	text	Append a note to the reference for additional information, like page numbers or other sub-references.		7.0
<code>key</code>	alnum	Unique reference for the group associated to the site. Can be retrieved from the Zotero Bibliography module.		7.0
<code>tag</code>	alnum	Uses the first result using the specified tag. Useful when the tag mechanism is coerced into creating unique human memorizable keys.		7.0
