

Share

Introduced in [Tiki6](#), this feature allows sending messages to [Social Networks](#), as well as internal messages or forum posts to alert on some wiki page in your Tiki site, etc.

How to use Share

Enable the Feature:

Admin home > Features > Global Features > Additional > Share

Admin Share

To access: Click the **Share** icon  on the [Admin Panel](#)
or access <http://example.org/tiki-admin.php?page=share>

Set it up in the Share admin panel:

Share

Configure share feature

Apply

Activate the feature

Share

Site-wide features

Display links on the share page ☒ advanced

HomePage

Congratulations

This is the default homepage for your Tiki. If you are seeing this page, your installation was successful.

You can change this page after logging in. Please review the [wiki syntax](#) for editing details.

Get started.

To begin configuring your site:

1. Log in with your newly created password.
2. Manually [Enable specific Tiki features](#) that you didn't enable with the Admin wizard.
3. Run [Tiki Profiles](#) to quickly get up and running.

Click to expand

Share with access rights

This feature is useful when sharing content that is not publicly available. The recipients will inherit user's access rights for the shared resource only.

Preferences required: `auth_token_access` and `auth_token_share`.
