

Enabling Slideshows

Select Admin--->Wiki and check the selection box "Uses Slideshow". (See below)

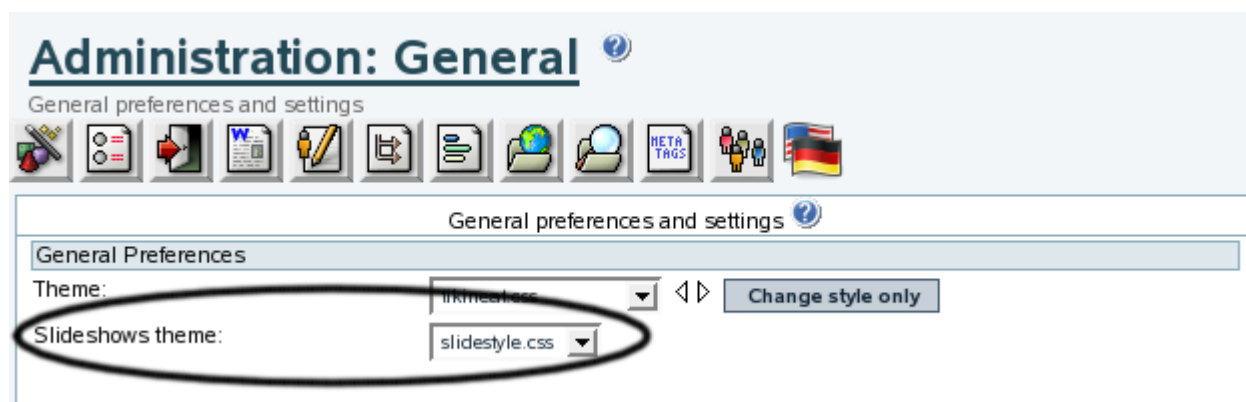

A screenshot of the Wiki administration interface. On the left, there is a vertical list of checkboxes, all of which are checked. Below this list is a text input field with the word "ation" visible. To the right, there is a list of settings with checkboxes:

- Use Wiki paragraph formatting:
- Automonospaced text:
- Tables syntax: || for rows
- Uses Slideshow:**
- Open page as structure:
- Use external link icons:
- User's Page:

The "Uses Slideshow" checkbox is circled in red.

Changing Slideshow Appearance

To change the appearance of your slides, select the CSS file to use in the Admin--->General panel. (See below)

A screenshot of the "Administration: General" panel. The title "Administration: General" is at the top left, followed by a help icon. Below it is the text "General preferences and settings". A row of icons is visible, including a pencil, a document, a folder, a globe, a magnifying glass, a document with "META TAGS", and a German flag. Below the icons is a section titled "General preferences and settings" with a help icon. Underneath, there is a "General Preferences" section. It contains a "Theme:" dropdown menu with "wikimeat.css" selected, and a "Slideshows theme:" dropdown menu with "slidestyle.css" selected. The "Slideshows theme:" dropdown is circled in black. To the right of the "Theme:" dropdown is a "Change style only" button.

Slideshows require a titlebar !!

The 'Slides' link appears on a page when there are 'titlebar' (==title==) tags on that page. Titlebar tags are used to indicate new slides for the slideshow.
