

The **User Tasks** feature is used to admin user tasks, which are similar to a to-do list. The Tasks screen is divided in two parts: a list of tasks and a form to enter a new task.

The list of tasks:

title	start	end	priority	completed
>> email für Dich	03/02/2005-16:50	04/02/2005-16:50	5	50%
>> Task fertig stellen	02/02/2005-19:40		5	waiting
Taskmodul for LabWiki	01/02/2005-19:10	04/02/2005-01:00	3	90%
<< Bauteilliste	20/12/2005-02:00		3	0%
<< XC167 Toolchain documentation	17/12/2005-01:00		3	70%
<< Please empty the trash today	03/02/2005-16:50		1	waiting

This list shows a user's tasks and some shared tasks.

- There are a few types of tasks:
 - private
 - >> *received task*: a task another user assigned to you
 - << *submitted task*: you assigned this task to a other user
 - >< *shared task*: this task is public to a group where you are member.

Icons

- means that this task is accepted by user and creator.
- means that only one user has accepted the task. Be aware that if you are making changes on submitted or received task it will get this state as default.
- one user has rejected this task.

States

- **waiting** / not started
- **open** / in process
- **completed** (100%)

A task is in the state **waiting** while the percentage is not set. After opening a task or setting the percentage between 0 and 100 it will go into the state **open** If you mark a task as completed or set the percentage on 100 it will be in the **completed** state.

The task list allows you to hide completed tasks with the **completed** checkbox.

Trash

Tasks can be removed by marking them as trash, and the "empty trash" button removes items.

But if you are not the creator you can only move the task in the trash of the creator if he has the option rights by creator disabled.

Tasks and dates:

From the user preferences screen the user can choose if he want to use dates for tasks. If dates are being used then tasks with a start date higher than the current date ARE not displayed in the listing or module, so future tasks are hidden. If dates are not used then all tasks are always visible. Note: when dates are in use the task listing will show links to display all tasks or tasks using dates only.

Editing a task:

The screenshot shows a web form titled "Open a new task". At the top, there are navigation icons and a breadcrumb trail: "[New task | Task list]". Below this, there are links for "move into trash" and "Admin mode on". The form fields are as follows:

- Created by:** martin.hausner 01/02/2005 -- 14:03 version: 0 last version: taskid: 0
- Task user:** martin.hausner (dropdown) Only the creator can delete this task
- Title:** Sample Tak
- Description:** A text area containing: "Use of tasks", "*Strukture tasks with wiki-syntax.", "*accept tasks", "*use Deadline", "*use percentage upadate!", "*use preview befor send, **red** but don't forget to send", "!!Wonder", "why not :-)", and "((LabWiki Home))".
- Start:** 01 February 2005 14:00 use start date and time
- End:** 31 March 2005 00:00 use end date and time
- Status:** open / in process (dropdown)
- Priority:** 1 (dropdown)
- Percentage completed:** 30% (dropdown)
- shared for group:** (dropdown)

At the bottom of the form are buttons for "save", "preview", and "reload".

This form is used to enter or edit a task. The start date field is only shown if using dates.

View tasks

The screenshot shows a web page titled "Tasks". At the top, there are navigation icons and a breadcrumb trail: "[New task | Task list]". Below this, there are links for "Edit task" and "Admin mode on". The main content area is titled "Sample Task" and contains the following information:

- Start:** 01.02.2005 -- 13:00
- End:** 30.03.2005 -- 22:00
- Status:** open / in process
- Priority:** 1
- Percentage completed:** 30%

Below this information is a section titled "Use of tasks" with a bulleted list:

- Strukture tasks with wiki-syntax.
- accept tasks
- use Deadline
- use percentage upadate!
- use preview befor send, **but don't forget to send**

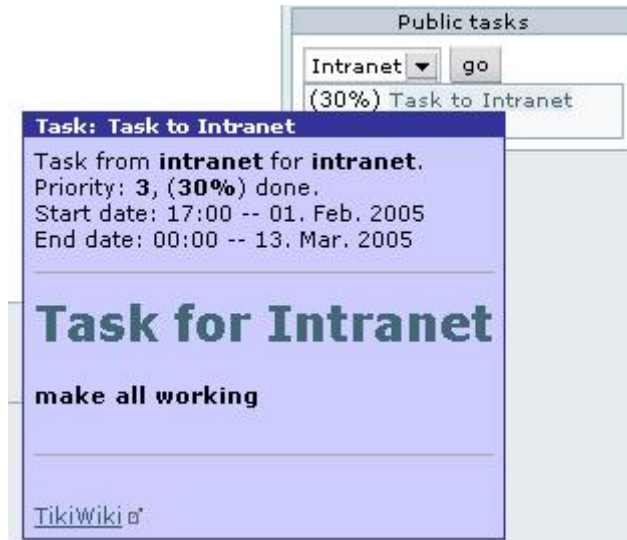

Below the list is a section titled "Wonder" with the text "why not :-)" and a link "LabWiki Home". At the bottom of the page, it says "Created by: martin.hausner for: martin.hausner."

The user tasks module

normal Usertasks-module (shows own and received tasks)

public Usertask-module (shows public tasks) (this picture with activated mouse-over-feature)

A user task module is available which will show a user's tasks. The user can use it to alter the tasks.

See: [Module user_tasks](#)

Permissions

To use the features *send*, *receive* and *shared tasks*, users need to be member of a group with task permissions. A user can only send if he has the right **tiki_p_tasks_send** and the receiver has **tiki_p_tasks_receive** rights. Also, to share a task you must be in a group with the right **tiki_p_tasks_receive**, and you can share members of that group.

The permission **tiki_p_tasks_admin** allows an admin to see all shared tasks and edit them.
