

The list of tasks:

The screenshot shows a web-based task management interface. At the top, there are navigation links: "New task", "Task list", "Admin mode on", and "task help". Below these is a "Tasks per page" dropdown set to "10". The main content is a table with the following columns: "title", "start", "end", "priority", and "completed".

	title	start	end	priority	completed
<input type="checkbox"/>	>>  email für Dich	03/02/2005-16:50	04/02/2005-16:50	5	50%
<input type="checkbox"/>	>>  Task fertig stellen	02/02/2005-19:40		5	waiting
<input type="checkbox"/>	Taskmodul for LabWiki	01/02/2005-19:10	04/02/2005-01:00	3	90%
<input type="checkbox"/>	>< Bauteilliste	20/12/2005-02:00		3	0%
<input type="checkbox"/>	>< XC167 Toolchain documentation	17/12/2005-01:00		3	70%
<input type="checkbox"/>	<<  Please empty the trash today	03/02/2005-16:50		1	waiting

Below the table, there are several controls: a "select one" dropdown, a "go" button, and a "show:" section with checkboxes for "private", ">> received", "<< submitted", ">< shared", "trash", and "completed". A "reload" button is also present. At the bottom, there is a "Page: 1/1", "1", "6 Tasks", a "Find" search box with a "find" button, and an "empty trash" button with a trash can icon.

This list shows a user's tasks and some shared tasks.

- There are a few types of tasks:
 - private
 - >> *received task*: a task another user assigned to you
 - << *submitted task*: you assigned this task to a other user
 - >< *shared task*: this task is public to a group where you are member.

Icons

-  means that this task is accepted by user and creator.
-  means that only one user has accepted the task. Be aware that if you are making changes on submitted or received task it will get this state as default.
-  one user has rejected this task.

States

- **waiting** / not started
- **open** / in process
- **completed** (100%)

A task is in the state **waiting** while the percentage is not set. After opening a task or setting the percentage between 0 and 100 it will go into the state **open** If you mark a task as completed or set the percentage on 100 it will be in the **completed** state.

The task list allows you to hide completed tasks with the **completed** checkbox.

Trash

Tasks can be removed by marking them as trash, and the "empty trash" button removes items.

But if you are not the creator you can only move the task in the trash of the creator if he has the option rights by creator disabled.

Tasks and dates:

From the user preferences screen the user can choose if he want to use dates for tasks. If dates are being used then tasks with a start date higher than the current date ARE not displayed in the listing or module, so future tasks are hidden. If dates are not used then all tasks are always visible. Note: when dates are in use the task listing will show links to display all tasks or tasks using dates only.

Editing a task:

The screenshot shows a web interface for creating a task. At the top, there's a 'Tasks' header with navigation icons. Below it, a breadcrumb trail shows '[New task | Task list]'. The main form is titled 'Open a new task' and includes the following fields:

- Created by:** martin.hausner, 01/02/2005 -- 14:03, version: 0, last version: [input], taskId: 0
- Task user:** martin.hausner, with a checkbox 'Only the creator can delete this task' checked.
- Title:** Sample Task
- Description:** A text area containing: 'Use of tasks', '*Strukture tasks with wiki-syntax.', '*accept tasks', '*use Deadline', '*use percentage upadate!', '*use preview befor send, ~~~red:but don't forget to send~~~', '!!Wonder', 'why not :-)', and '((LabWiki Home))'.
- Start:** 01 February 2005, 14:00, with a checkbox 'use start date and time' checked.
- End:** 31 March 2005, 00:00, with a checkbox 'use end date and time' checked.
- Status:** open / in process
- Priority:** 1
- Percentage completed:** 30%
- shared for group:** [input]

At the bottom of the form are buttons for 'save', 'preview', and 'reload'.

This form is used to enter or edit a task. The start date field is only shown if using dates.

View tasks

The screenshot shows the 'View tasks' page. At the top, there's a 'Tasks' header with navigation icons. Below it, a breadcrumb trail shows '[New task | Task list]'. The main content is titled 'Sample Task' and includes an 'Edit task' link. The task details are displayed in a yellow box:

- Start:** 01.02.2005 -- 13:00
- End:** 30.03.2005 -- 22:00
- Status:** open / in process
- Priority:** 1
- Percentage completed:** 30%

Below the yellow box is a section titled 'Use of tasks' with a bulleted list:

- Strukture tasks with wiki-syntax.
- accept tasks
- use Deadline
- use percentage upadate!
- use preview befor send, **but don't forget to send**

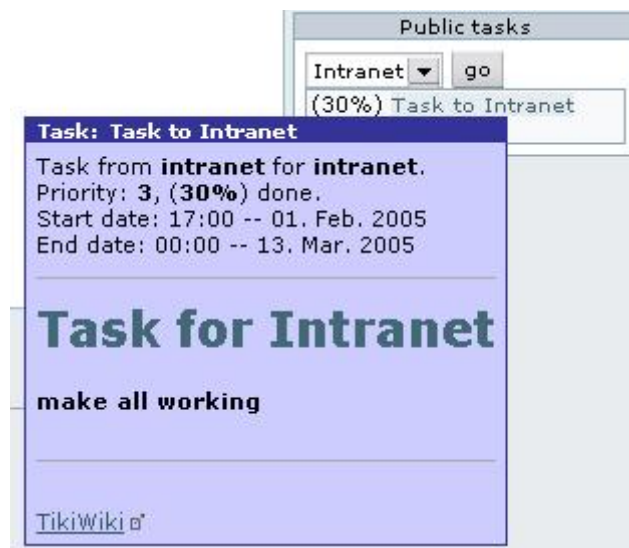

Below the list is a section titled 'Wonder' with the text 'why not :-)' and a link 'LabWiki Home'. At the bottom, it says 'Created by: martin.hausner for: martin.hausner.'

The user tasks module

normal Usertasks-module (shows own and received tasks)

public Usertask-module (shows public tasks) (this picture with activated mouse-over-feature)

A user task module is available which will show a user's tasks. The user can use it to alter the tasks.

See: [Module user_tasks](#)

Permissions

To use the features *send*, *receive* and *shared tasks*, users need to be member of a group with task permissions. A user can only send if he has the right **tiki_p_tasks_send** and the receiver has **tiki_p_tasks_receive** rights. Also, to share a task you must be in a group with the right **tiki_p_tasks_receive**, and you can share members of that group.

The permission **tiki_p_tasks_admin** allows an admin to see all shared tasks and edit them.

Alias

- User Task
- User Tasks
- Tasks
