## spam due to posting comments allowed for anonymous: removed

 Posted by [Xavi \(as xavidp - admin\)](#) Sun 27 May, 2007 17:03 GMT-0000 posts: 33     

I've removed the perm. for anonymous users to post comments on wiki pages, to prevent spam which was coming to doc.tw.o...

[Features](#) was the first (afaik) to get spam... I've just removed the spammer comment.

I guess that this can be set back to allow anonymous comments when some kind of captcha feature is enabled at comments (afaik, not available in 1.9.7, but it is on 1.10..., isn't it?)

It exists for wiki page comments in 1.9.8. Not sure about forum posts...
