I've added this page and other two related to performance to the structure.
Now it is something like:

... # 6.2 Hacking Tikiwiki * 6.2.1 Adding a new feature * 6.2.2 Using Smarty Filters * 6.2.3 Translating to a new language * 6.2.4 Tikiwiki Performance Tuning * 6.2.5 Database Performance * 6.2.6 Tracker Performance # 6.3 ToolBox ...

Update as you like... or suggest changes, if you are not in the Editor group (yet )
