## Tiki19beta.pdf and Tiki19beta.odt

Posted by Xavier de Pedro Thu 05 Jul, 2007 05:24 GMT-0000 posts: 57

Hi folks:

The Documentation in .pdf and .odt is moving forward! It's not finished (half way done out of 786 pages, so far).

I've updated the links at http://doc.tikiwiki.org/Documentation

Major improvements to the documentation structure in this wiki should be **manually** updated also on that .odt, until we have a better way to make the transition from such a Big documentation structure in Tiki to a local editable and paginated single file.

This is a community effort... Join us! 

Xavi

Hi all:

I've added some guidelines to help other produce the .pdf file from the .odt.

http://doc.tikiwiki.org/tiki-index.php?page=Tiki19beta.pdf

I cannot currently dedicate as much time as I did last July to keep the .odt and .pdf files up to date.

Cheers,

Xavi

30+ pages of Index!  How awesome is that?

Mike.
