Re: Wiki Plugins

Hi Rick:

I copied it from tw.o, and I've heard sometimes in forums people attempting to look for a way to modify the toc layout (structures), and they were looking for toc under dir lib/wiki-plugins , etc. (I also thought at the beggining that everything inside { } tags was a plugin...

That's way I thought in including that in the doc pages.. But if you think it should go elsewhere, go ahead...

Cheers,

Xavi
