I can not see the link suggested in "Login box disappeared".

Can anyone help me?

Hi,

I installed wiki with afantastico, and it worked for some days. Now, I am kept out and can't access it again. My users can access it normally and I tried using some of their accounts, but didn't work for me. I even tried this link:

<http://doc.tikiwiki.org/tiki-index.php?page=Lost+admin+password&highlight=lost%20password>

but not sure if fixed the porblem. I can see the same window of a normal user with no (admin Panel).

It's like I lost all my admin permissions.. PLEASE help![]

Thanks..
