According to the motion passed in the last <http://doc.tikiwiki.org/Editorial+Board+Meeting+2008+07> , we are closing this forum (just after this post), and we will allow only comments on wiki pages to users included in the DocContributors group, not just to registered users requesting for help.

This way we expect to stop allowing help requests on this doc.tw.o site, which should go to tw.o forums instead. And comments on pages would be for discussing issues related to writing documentation only.

Everybody is welcome to join the <http://doc.tikiwiki.org/Editorial+Board> and its meetings where those issues are being discussed and decided.
